

I U P U I
MATH CLUB TEASER #6

November 7, 2008
(due November 14, 2008)

Compete on December 5 in the first annual

MATHLETIC COMPETITION

PRIZES! FUN!

**The registration form is available on the Math
Club website (see below).**

Show that in any group of six people there are always either three that know each other, or three that do not know each other (assume that if A knows B then B knows A too).

The IUPUI Math Club invites everybody to submit solutions to its weekly recreational mathematics problem. Interested individuals and teams of up to four participants must submit a cover sheet (available at jagmath.usg.iupui.edu) together with their written solution. At the end of the semester, every IUPUI student that sent a correct solution will receive a certificate of merit. Prizes will be distributed among the IUPUI undergraduate teams that submit the most correct solutions.

Solutions are due one week after each problem is posted, and should be faxed to (317) 274-3460, dropped off in person at LD 270, or sent by campus or U.S. mail to:
