School of Engineering and Technology
International Project-Based Learning Travel Grant

Briefly describe any involvement in service to a local community.	
Provide the name and contact information of one faculty or staff member who can recommend you for the travel grant. The faculty or staff member should be someone within the School of Engineering and Technology.	
Have you applied, or do you intend to apply, for any other study-abroad scholarships or grants? Yes _____ No _____ Award Name(s):	
Answer the following on a separate sheet:	
1.	Describe any service-learning or project-based learning that you will complete as part of this international experience.
2.	In what way is international experience important to your degree program and to your career plans?
3.	Suppose that you had agreed to participate in a group project to study the social effects of electronic communication. As part of the project, you would be required to live 4 full days completely <i>off the grid</i> without any electronic devices: No smart phones, no regular phones, no computers or tablets of any kind, no TV or radio. Would you find it difficult to cope? Why or why not?

By signing below, or by sending the electronic version of this document from my email account, I acknowledge that the information provided on this application is correct to the best of my knowledge. I understand that this award is intended solely to support my participation in an approved international program. I agree that, if for any reason I do not in fact participate in the approved program, I must refund any payments that were made in anticipation of my participation..

Signed _____ Date _____

Submit the application, together with attachments, to ET 331, attention Timothy Diemer. Include a printed copy of the unofficial transcript from *OneStart*. You may also send the documents as attachment to email:
